

KENYA RECOMMENDED VACCINES

Visit the Center for Disease Control website for up-to-date requirements (www.cdc.gov) and/or speak with a local travel doctor regarding vaccinations.

Recommendations for Kenya include:

- Covid-19
- Hepatitis A & B
- Polio
- Typhoid
- Yellow Fever
- Anti-Malarial Medication

NOTE: We also advise that you speak with your doctor regarding a prescription for an antibiotic to combat food and water borne illnesses.

To learn more go to the [Health Information for Travelers to Kenya](#) page on the CDC website.
